

K-State Wesley Residential Covenant

The residents of K-State Wesley are invited to participate in community living and abide by this covenant. The intent of this covenant is to create an atmosphere of mutual support and accountability so that residents may live in an environment that is both enjoyable and safe. The Wesley residential community cultivates a Christian atmosphere in which students may deal with the spiritual, intellectual and social challenges of college life. Activities are intended to create a sense of community, to share the joy of the Christian life, and to provide a space for students to wrestle with difficult issues and find support during challenging times. We are a diverse community committed to learning, sharing, and serving in the name of Jesus Christ. Residents need to be open-minded and respectful of other people and their property.
